

11g Wireless Network Camera

Product Overview

The LevelOne WCS-2020 Wireless Network Camera provides users with an ideal low cost wireless IP based surveillance solution.

It is easy to setup, makes use of a wireless network for flexible deployment, provides users with the ability to log in from remote locations to view live video and also enables users to capture JPEG format pictures.

Easy Setup

The LevelOne WCS-2020 allows for quick installation and setup. The setup wizard included provides users with step-by-step quick set-up procedures. The camera connects automatically to a wireless network from where users can access the camera.

Simultaneous Viewing

The Wireless Network Camera allows users to login to view live video streaming simultaneously from different remote locations. The advanced video compression produces high-quality, high frame rate, VGA or QVGA video streaming and is also more economical for streaming data to different locations.

DDNS and UPnP Support

With DDNS and UPnP support, users can quickly access the WCS-2020 with the use of Microsoft's Network Environment interface. The camera is accessible with the click of the button without users needing to setup or remember complicated IP addresses.

Web-based Monitoring Utility

The LevelOne WCS-2020 is bundled with a Web-based camera utility that allows users to access the camera and video streams either over the LAN or remotely over the Internet.

The utility also allows for multiple camera monitoring, recording to hard drive, image capturing and live monitoring.

WCS-2020

Key Features

- View live streaming video wireless over the local network or over the Internet
- Features Motion JPEG (MJPEG) video compression for easy video streaming
- Supports up to 640x480 pixel at 20 frames per second
- Bundled with an easy to use Web-based management utility
- Supports Motion detection
- Wireless streaming with 802.11g wireless standard
- Firmware upgradeable
- Supports Windows 98/ME2000/2003/XP

Technical Specification

Device Specifications

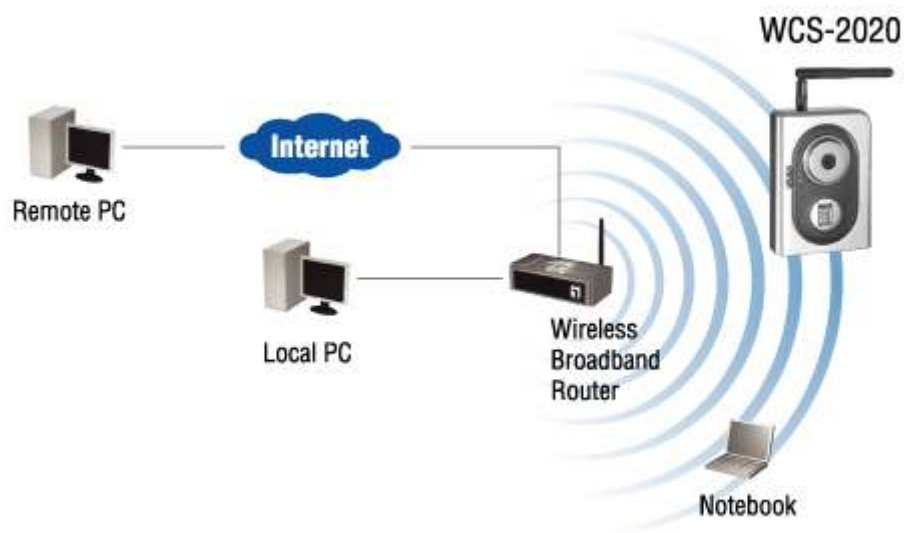

- **Network Interface**
IEEE 802.11b/g Wireless
10/100Mbps LAN
- **Image Sensor**
CMOS
- **Lens**
Manual focus
F=1.8
- **Power**
12VDC, 1A Power adapter

Physical Specifications

Operating Temperature
0°C ~ 45°C
10% ~ 90% (Non-condensing)

Certification
DCC Class B
CE Marks
C-Tic
VCC
